“SMART ENERGY AGRICULTURE”

FEBRUARY 7th 2022

4.45 pm - 8.30 pm Dubai time / 1.45 pm - 5.30 pm CET

A “Think tank” to discuss green technologies to improve energy efficiency and applications of circular economy principles in agriculture by actively involving the participants.

We will discover how, thanks also to technological innovations, today the world of agriculture is increasingly projected towards a sustainable future. We will describe possible applications of circular economy in agriculture with particular attention to renewable energy sources. We will address adults and young people, who want to know more on circular agriculture and how it works. We will also provide examples explaining the numerous and considerable advantages derived from the application of the circular economy in agriculture.

Venue **Accademia** - Italy Pavilion

Language English

Age **16+**

Important COVID-19 Precautions for Entry: All attendees must show a valid COVID-19 PCR test taken within 72 hours to access the event.
